Stretcher-bearers

Saving Australians from Gallipoli to Kokoda

by Mark Johnston – *Scotch College*

Written by a leading expert on the Australian Army and the Second World War, this book is a generously illustrated, engaging and moving account of the history of the stretcher-bearer, a figure praised by countless Diggers but never previously the subject of a book. Johnston's original research draws on accounts by stretcher-bearers who worked on the front line, as well as tributes from rescued soldiers, to deepen our understanding of the crucial role these soldiers played in Gallipoli, Palestine, the Western Front in World War I, and in the Middle East and the Pacific in World War II. The narrative is further driven by rich imagery, featuring over 130 full-page photographs.

The Graphic Novel

An Introduction

by Jan Baetens and Hugo Frey

This is the first book to explain the difference between comics and graphic novels, giving a complete overview of the genre via numerous examples and illustrations. Jan Baetens and Hugo Frey explore this exciting form of visual and literary communication, showing readers how to situate and analyse graphic novels since their rise to prominence half a century ago. Through their analysis of the works of many well-known graphic novelists, Baetens and Frey offer significant insights for future teaching and research on the graphic novel.

Anthropology

AIDS, Politics, and Music in South Africa

by Fraser G. McNeill

This book offers an original anthropological approach to the AIDS epidemic in South Africa, demonstrating why AIDS interventions in the former homeland of Venda have failed. Through the songs of female initiation, AIDS education and wandering minstrels, the book argues that music is central to understanding how AIDS interventions operate.

Business and Management

The Entrepreneurial Arch

A Strategic Framework for Discovering, Developing and Renewing Firms

by Timothy L. Faley

This book offers a fresh approach to entrepreneurship by teaching readers how to discover and create a new firm, or grow an existing one, starting from a firm or team's capabilities. The core methodology is based on the 'entrepreneurial arch' which provides a more holistic view of entrepreneurship. An important feature of this model is the focus on opportunity identification, business design and risk reduction prior to the business planning stage being attempted.

Britain's Two World Wars Against Germany

Myth, Memory and the Distortions of Hindsight

by Brian Bond

In a rare comparative account of Britain's achievement in the two wars against Germany, leading military historian Brian Bond challenges the popular view of the First World War as catastrophic and futile in contrast to the Second World War as a well-conducted and victorious crusade. This book challenges popular myths about the First World War and Second World War and charts how these misconceptions took hold. Bond boldly concludes that in a number of important respects Britain was more successful in the First World War than in the Second.

The French Army and the First World War

by Elizabeth Greenhalgh – *University of New South Wales*

This is a comprehensive new history of the French army's critical contribution to the Great War. It examines the French army's achievements and failures and sets these in the context of the difficulties of coalition warfare and the relative strengths and weaknesses of the enemy forces it faced. In a unique manner, this book revises our understanding not only of wartime strategy and combat, but also of other crucial aspects of France's war, from mutinies and mail censorship to medical services, railways and weapons development.

The Past is a Foreign Country – Revisited

by David Lowenthal

The past remains essential and inescapable. A quarter-century after the publication of his classic account of man's attitudes to his past, David Lowenthal revisits how we celebrate, expunge, contest and domesticate the past to serve present needs. He shows how nostalgia and heritage now pervade every facet of public and popular culture. New insights into history and memory, bias and objectivity, artefacts and monuments, identity and authenticity, and remorse and contrition, make this book once again the essential guide to the past that we inherit, reshape and bequeath to the future.

Politics

A Darkling Plain

Stories of Conflict and Humanity During War

by Kristen Monroe, Chloe Lampros-Monroe and Jonah Pellecchia

A Darkling Plain fills an important scholarly void, analysing wartime stories that reveal much about our capacity to process trauma, heal wounds, reclaim lost spirits, and derive meaning and purpose from the most horrific of personal events. How do people maintain their humanity during wars? Despite its importance, this question receives scant scholarly attention, perhaps because war is overwhelming. Studying what helps people survive wartime trauma thus becomes an extremely valuable enterprise.

Privacy, Big Data, and the Public Good

Frameworks for Engagement

Edited by Julia Lane, Victoria Stodden, Stefan Bender and Helen Nissenbaum

Written in a very accessible format, this book touches upon three crucial areas: privacy, data access and big data. Structured in three easy-to-understand sections, the book's authors paint an intellectual landscape that includes legal, economic, and statistical frameworks. The authors also identify new practical approaches that simultaneously maximise the utility of data access while minimizing information risk.

Book Launches

A History of Canberra

Successfully launched by Geoff Page.

Date: 7th August, 5:30pm

Location: Paperchain Bookstore, Manuka

Designed as an 'ideal city' and emblem of the nation, Canberra has long been a source of ambivalence for many Australians. In this charming and concise book, Nicholas Brown challenges these ideas and looks beyond the clichés to illuminate the unique, layered and often colourful history of Australia's capital. Brown covers Canberra's selection as the site of the national capital, the turbulent path of Walter Burley Griffin's plan for the city, and the many phases of its construction. He surveys citizens' diverse experiences of the city, the impact of the Second World War on Canberra's growth, and explores the city's political history with insight and wit.
